

# Adjustable Height Cabinet

## BENEFITS

- Ergonomically designed to meet the needs of law enforcement professionals
- Provides secure protection for scanner, monitor, keyboard and PC
- Keyed lock
- User-friendly placement of control elements and consumable
- Motorized workspace height adjustment
- Durable, industrial-grade kiosk

## PRODUCT DESCRIPTION

The Crossmatch® Adjustable Height Cabinet addresses customer needs with improved ergonomics, added flexibility and an expanded feature set. The system accommodates most Crossmatch Guardian® ten-print scanners, as well as L Scan® palm print scanners.

Designed with law enforcement professionals in mind, the user control elements of the cabinet are arranged ergonomically. Capturing fingerprints, palm prints and textual data is an intuitive process that takes just a few moments. Through thoughtful design, the cabinet helps to streamline the criminal booking process and enhance officer safety.

The system includes an integrated flat-screen monitor with optional touch screen functionality. The large monitor conveniently adjusts for optimal viewing and displays captured fingerprints in full resolution. Different monitor options are available, touch screen and rugged enclosure.

The cabinet is designed to provide ample workspace for documents or peripherals, such as signature capture solutions, barcode scanners or additional input devices. Foot switch controls are conveniently located at the front of the cabinet for simplifying the capturing process.

Optional brackets are available to hold a Bar Code scanner and cameras. This would allow users to permanently install a video or still camera to capture mug shots in addition to scar, birthmark or tattoo images. A customizable system, the Adjustable Height Cabinet delivers value, ease of use and high reliability.

## ABOUT CROSSMATCH

Crossmatch helps organizations solve their identity management challenges through biometrics. Our enrollment and authentication solutions are trusted to create, validate and manage identities for a wide range of government, law enforcement, financial institution, retail and commercial applications. Our solutions are designed using proven biometric technologies, flexible enrollment and strong multi-factor authentication software, and deep industry expertise. We offer an experienced professional services capability to assess, design, implement and optimize our identity management solutions for a customer's individual challenges. Our products and solutions are utilized by over 200 million people in more than 80 countries.
